Operations

NAXS Nordic Access Buyout Fund AB (publ) ("NAXS" or the "Company") operates as a fund of funds with investments in Nordic buyout funds. The objective is to make the Nordic private

equity market accessible for a broader range of investors, while offering liquidity through the Company's publicly traded shares. The investment strategy is oriented towards a selective but diversified fund portfolio.

Operations commenced on April 17, 2007, and the Company was listed on First North on May 14, 2007. Since June 8, 2010, the Company is listed on the NASDAQ OMX Stockholm.

NAXS is the Group's parent company and is headquartered in Stockholm. In addition to the parent company, the Group consists of an operational Norwegian subsidiary, NAXS Nordic Access Buyout AS, headquartered in Oslo ("NAXS AS"). The subsidiary operates as a holding company for the Group's fund investments.

Naccess Partners AB (formerly NAXS Nordic Access Advisors AB) has been contracted as the investment and management advisor to NAXS AS.

Market review

The Nordic buyout market ended the year substantially up on 2009, both in terms of transaction volume and deal value, following the same trends as the European private equity market. All segments of the buyout industry showed considerable level of activities in the last quarter of the year, with deals emanating from the small cap, mid cap and large cap segments. NAXS' portfolio reflected a similar pattern during the quarter.

Fund portfolio

As of December 31, 2010, NAXS had commitments to 6 underlying funds.

At the end of the reporting period:

- the book value of fund investments amounted to MSEK 300, which corresponds to 53 percent of the Company's total equity;
- outstanding investment commitments amounted to MSEK 252, which can be used by the 6 underlying funds for new investments;
- total investment commitments to underlying funds amounted to MSEK 561, which corresponds to 98 percent of the Company's total equity.

Acquisitions and divestments

At the end of the reporting period, NAXS' underlying funds had acquired a total of 57 companies, 4 of which had been divested.

During 2010, NAXS' underlying funds closed or signed 18 new acquisitions and a number of add-on acquisitions. Valedo sold healthcare company Solhaga to Bridgepoint Capital Development, as well as bathroom furniture manufacturer Aspen to CapMan. Apax divested Qualitest Pharmaceuticals Endo Pharmaceuticals and exited an additional portfolio company. The completion of the divestment of the 4 portfolio companies resulted in MSEK 29 being repaid to NAXS during 2010.

All the divested companies were acquired by the underlying funds in 2007.

The repayment resulting from the divestment of the 4 portfolio companies is equivalent to approximately two times the invested capital and a return of over 25% per year.

On average, the 4 exited portfolio companies were divested at a valuation that was over 50% higher than that latest valuation performed by the underlying funds.

December 31, 2010

- Total commitments: 98% of total equity
- Book value of fund investments: 53% of total equity

Significant risks and uncertainty factors

Significant risks and uncertainty factors are described in the Annual Report 2009 and in the prospectus issued in relation with the change of listing to the NASDAQ OMX Stockholm exchange. There has been no significant change in relation thereto since the publication of the annual report and the issuance of the prospectus.

Events after the interim period

The board has resolved to propose to the Annual General Meeting that no dividend is paid and that the Company is given the authorization to conduct share buybacks.

Future prospects

Although there is a degree of uncertainty relating to the public debt crisis affecting several European economies, one can reasonably expect that the private equity industry will continue to experience a relatively high level of investment activity in the first half of 2011. It therefore can be anticipated that NAXS' investment level will increase at the same pace as in 2010 in the coming quarters, as liquid assets continue to be drawn by underlying funds to finance new acquisitions.

Parent company

The parent company has not had any sales during t 2010. For 2010, the loss (profit) after financial items amounted to KSEK -4,311 (2,375). The deterioration of the financial result is mainly due to the costs incurred in relation to the change of listing proceedings, as well as the lower amount of liquid assets and the lower interest rates on such liquid assets. This year's tax revenue amounted to KSEK 1 130 (-730) and consisted of increased deferred tax assets. The net loss (profit) amounted to KSEK -3,181 (1,730).
