Operations

NAXS Nordic Access Buyout Fund AB (publ) (“NAXS” or the “Company”) operates as a fund of funds with investments in Nordic buyout funds. The objective is to make the Nordic private equity market accessible for a broader range of investors, while offering liquidity through the Company’s publicly traded shares. The investment strategy is oriented towards a selective but diversified fund portfolio.

Operations commenced on April 17, 2007, and the Company was listed on First North on May 14, 2007. Since June 8, 2010, the Company is listed on the NASDAQ OMX Stockholm.

NAXS is the Group’s parent company and is headquartered in Stockholm. In addition to the parent company, the Group consists of an operational Norwegian subsidiary, NAXS Nordic Access Buyout AS, headquartered in Oslo (“NAXS AS”). The subsidiary operates as a holding company for the Group’s fund investments.

Naccess Partners AB has been contracted as the investment and management advisor to NAXS AS.

Market review

The Nordic buyout market experienced a relatively high level of activity during the first quarter of 2011, both in terms of investments and divestments. Most of the new acquisitions were made by small and mid-cap funds, while the exits were more evenly split amongst all segments of the buyout industry. It also expected that a number of Nordic managers will be looking to raise new funds during the next 12 to 18 months.

Fund portfolio

As of March 31, 2011, NAXS had commitments to 6 underlying funds.

At the end of the reporting period:

- The book value of fund investments amounted to MSEK 333, which corresponds to 57 percent of the Company’s total equity;
- Outstanding investment commitments amounted to MSEK 233, which can be used by the 6 underlying funds for new investments;
- Total investment commitments to underlying funds amounted to MSEK 557, which corresponds to 95 percent of the Company’s total equity.

Acquisitions and divestments

At the end of the first quarter of 2011, NAXS’ underlying funds had acquired a total of 60 companies, 4 of which had been divested. The 4 exits generated returns of over 25% per year.

During the quarter, NAXS’ underlying funds closed or signed 3 new acquisitions and a number of add-on acquisitions.

No exit occurred during the quarter.

In February, Apax proceeded to the recapitalization of Tnuva, a portfolio company located in Israel and active in the dairy industry. The recapitalization returned in excess of the total original investment in Tnuva.

March 31, 2011

- Total commitments: 95% of total equity
- Book value of fund investments: 57% of total equity

Future prospects

Although recent geopolitical developments and the public debt crisis affecting several European economies may negatively affect investors' sentiment, it is not expected that this will substantially alter the private equity investment activity. In addition, the exit market is expected to continue to provide a favourable backdrop for the private equity industry during 2011. It is thus anticipated that NAXS' investment level will continue to gradually increase during the coming quarters. Also, a number of attractive private equity managers in NAXS' investment universe are expected to raise new funds during the next 12 to 18 months and NAXS expects to make use of its over-commitment allowance in order to make new fund commitments.
